(X)= Not Applicable

¹ Total money income is the algebraic sum of money wages and salaries, net income from self-employment, and income other than earnings.

² Households in which at least one member is related to the person who owns or rents the house (householder)

³ In married-couple households, generation status and year of entry refer to the householder.

⁴ No spouse present.

⁵ All characteristics based on 2004 data except income which is based on 2003.

⁶ The foreign born are considered first generation. Natives with either parent born in a foreign country are considered second generation. Natives with neither parent born in a foreign country are considered third-and-higher generation.
